

REVISED VERSION

Patient Data Base System

In order to provide you with more effective medical care, your doctor needs certain basic information about your medical history. The few minutes you spend completing this booklet will be an important contribution to your overall health care.

Please read all instructions carefully before answering any questions. Take whatever time you need to finish each section. Don't worry if you can't remember, or aren't sure of the answer to any part or question. You'll have a chance to go over it afterwards with the doctor.

Thank you.
