Operational Guidelines for Assisted Living was developed as a template for policies and procedures in Assisted Living communities. To the best of our knowledge, it reflects current federal regulations and practices. However, it should **not** be considered absolute and universal. The information in this book must be considered in light of your organization and specific state regulations.

The author and publisher disclaim responsibility for any adverse effects resulting directly or indirectly from the use of this manual, from any undetected errors and from the user's misunderstanding of the text. The author and publisher put forth every effort to ensure that the content, including any policies, recommendations and sample documents used in this text were in agreement with current federal regulations, recommendations and practices at the time of publication.
